

BIBLIOGRAPHY
OF THE PAPERS ON PERIGLACIAL MORPHOLOGY
PUBLISHED BY SOVIET WRITERS IN 1960—1966

Collected by Yu. V. Mudrov

GENERAL PROBLEMS

- Abramova, T. A., Leontev, O. K., 1966 — Nekotorye cherty razvitiya prirody materikovo poberezhya Sakhalinskogo zaliva v verkhnem pliocene — antropogene (Some features of the landscape development on the continental coast of Sakhalin Bay in the upper Pliocene — Anthropogene). *Vestnik Mosk. Univ., ser. geog.*, no. 5.
- Akimov, A. T., 1960 — Yuzhnaya granica oblasti rasprostraneniya mnogoletnemerzlykh gornykh porod (kriolitozony) v predelakh Bolshezemelskoj tundry (Southern boundary of permafrost (cryolithozone) in the Bolshezemelskaya tundra). *Materialy k osnovam ucheniya o merzlykh zonakh zemnoj kory*, vyp. 5; ed Akad. Nauk SSSR, Moscow.
- Akimov, A. T., 1961 — Mnogoletnemerzlye porody lesnoj zony, leso-tundry i tundry vdol r. Adzvy (Permafrost of the forest-, forest-tundra, and tundra zone in the Adzva valley). In: *Vechnaya merzlota i mikrorelief*; ed. Akad. Nauk SSSR, Moscow.
- Alekseev, V. R., 1966 — O principe postroeniya i soderzhanii kompleksnykh geokriologicheskikh kart (The principles of construction and the content of combined cryological maps). In: *Materialy VIII Vsesoyuznogo mezhdovedomstvennogo soveshchaniya po geokriologii (merzlotovedeniyu)*, vyp. 2; Sibirskoe otd. Inst. Merzlotovedeniya, Akad. Nauk SSSR, Yakutsk.
- Andreev, Yu. F., Yakovlev, O. N., 1963 — Gidrogeologicheskij ocherk mezokajnozojskikh otlozhenij severo-zapadnoj chasti Zapadno-Sibirskoj neftegazonosnoj provincii (Hydrogeological sketch of the Meso-Cenozoic deposits of the north-western part of the West-Siberian petroleum-gas region). *Trudy Vsesojuzn. Neftyan. Nauchno-issled. Geol.-razved. Inst.*, vyp. 225.
- Armand, A. D., 1960 — Ocherk formirovaniya reliefa i chetvertichnykh otlozhenij Khibinskikh tundr (Development of land-forms and Quaternary deposits in the Khibiny tundras — an outline) In: *Voprosy geomorfologii i geologii osadochnogo pokrova Kolskogo p-pa*, t. I, 2; Apatity.
- Bagrova, Z. A., 1966 — Deshifirovanie chetvertichnykh otlozhenij Severa Evropejskoj chasti Soyuza (Interpretation of Quaternary deposits of the

- north-European part of the Soviet Union). In: *Teoria i praktika deshi-frirovaniya aerosnimkov*; ed. Nauka, Moscow—Leningrad.
- Bagrova, Z. A., Kiryushkin, V. N., 1964 — K voprosu o vzaimosvyazi bolot s reliefom, chetvertichnymi otlozheniyami i novejsшими tektonicheskimi dvizheniyami (On the interdependence of bogs and the relief, Quaternary deposits and young deep tectonic). *Doklady Akad. Nauk SSSR*, t. 154, no 2.
- Balobaev, V. T., 1963 — Protaivanie merzlykh gornyx porod pri vzaimodejstvii s atmosferoj (Influence of atmosphere upon the thawing of frozen rocks). In: *Teplo- i massobmen v mnogoletnemerzlykh gornyx porodakh*; ed. Akad. Nauk SSSR.
- Balobaev, V. T., 1964 — Teploobmen mezhdru atmosferoj i gornymi porodami i protaivanie merzlykh gornyx porod (Heat circulation between the atmosphere and the ground and thawing of the ground). In: *Sovremennye voprosy regionalnoj i inzhenernoj geokriologii (merzlotovedeniya)*; ed. Nauka, Moscow.
- Baranov, I. Ya., 1960 — Geokriologicheskaya karta SSSR — pojasnitelnaya zapiska (Geocryological map of the USSR — explanation note). Moscow.
- Baranov, I. Ya., 1963 — Nekotorye voprosy zonalnykh zakonmer-nostej razvitiya mnogoletnemerzlykh porod (Some aspects of zonal regularities of the permafrost formation). In: *Doklady na mezhdunarodnoj konferencii po merzlotovedeniyu*; ed. Akad. Nauk SSSR, Moscow.
- Baranov, I. Ya., 1965 — Mnogoletnaya i sezonnaya merzlota (Predbajkalya i Zabajkalya) (Permafrost and seasonal frozen ground in Forebajkal and Transbajkal). In: *Predbajkale i Zabajkale*; ed. Nauka, Moscow.
- Baranov, I. Ya., 1965 — Principy geokriologicheskogo (merzlotnogo) rajonirovaniya oblasti mnogoletnemerzlykh gornyx porod (Principles of geocryological division of permafrost regions). Ed. Nauka, Moscow.
- Baranov, I. Ya., Baulin, V. V., 1964 — Vliyanie mnogoletnego promerzaniya na formirovanie geomorfologicheskikh urovnej (The influence of long-term freezing upon the development of morphologic surfaces). *Merzlotnye issledovaniya*, vyp. 4; ed. Mosk. Univ.
- Baranova, Yu. P., 1962 — Istoriya razvitiya reliefa Verkhoyanskoy oblasti (The history of relief development of the Verkhoyansk territory). *Trudy Inst. Geol. i Geofiz. Sib. Otd. Akad. Nauk SSSR*, vyp. 27: Chetvertichnaya geologiya i geomorfologiya Sibiri; Novosibirsk.
- Baranova, Yu. P., Biske, S. F., 1962 — Opyt geomorfologicheskogo rejonirovaniya severo-vostoka Sibiri (An attempt to geomorphological sub-division of the north-east of Siberia). *Sibirskoj Geogr. Sbornik*, vyp. 1; ed. Akad. Nauk SSSR, Moscow.
- Baranova, Yu. P., Biske, S. F., 1964 — Stratigrafiya kajnozoya i istoriya razvitiya reliefa Vostochno-Sibirskoj nizmennosti (Stratigraphy of the Cenozoic and history of relief development of the east-Siberian plain). *Trudy Inst. Geol. i Geofiz. Sibirskogo Otd. Akad. Nauk SSSR*, vyp. 8.

- Bardin, V. I., 1963 — Zonalnost periglacialnykh yavlenij v gorakh Zemli Korolevy Mod (The zonality of periglacial phenomena in the Queen Maud Land mountains). *Inform. Biul. Sov. Antarkt. Eksped.*, no. 43.
- Bardin, V. I., 1965 — Gory centralnoj chasti Zemli Korolevy Mod, Vostochnaya Antarktida (The mountains of the central part of Queen Maud Land, East Antarctica). Ed. Nauka, Moscow.
- Baulin, V. V., 1962 — Osnovnye etapy istorii razvitiya mnogoletnemerzlykh porod na territorii Zapadno-Sibirskoj nizmennosti (Main stages of permafrost formation in the territory of the West Siberian plain). *Trudy Inst. Merzlotovedeniya Akad. Nauk SSSR*, t. 19.
- Baulin, V. V., 1966 — Moshchnost merzlykh tolshch kak odin iz pokazatelej tektonicheskogo stroeniya rajona — na primere severa Zapadnoj Sibirii (Thickness of permafrost as one of indicators of tectonic structure — as exemplified by the northern part of Western Siberia). *Geologiya i Geofizika*, no. 1.
- Baulin, V. V., 1966 — O merzlotnom rajonirovanii Zapadnoj Sibiri (Periglacial sub-division of Western Siberia). In: *Materialy VIII Vsesoyuznogo mezhdudedomstvennogo soveshchaniya po geokriologii (merzlotovedeniyu)*, vyp. 3; Sibirskoe Otd. Inst. Merzlotovedeniya, Akad. Nauk SSSR, Yakutsk.
- Belokrylov, I. D., Efimov, A. I., 1960 — Mnogoletnemerzlye porody zony zhelezorudnykh i ugolnykh mestorozhdenij Yuzhnoj Yakutii (Permafrost in the area iron-ore and coal deposits of Southern Yakutia). Ed. Akad. Nauk SSSR, Moscow.
- Belorusova, Zh. M., 1960 — K voprosu o chetvertichnoj istorii Tazovskogo poluoostrova (On the Quaternary history of Tazovsk Peninsula). *Trudy Vses. Neftyanogo Nauchno-issl. Geolorazvedochn. Inst.*, vyp. 158; Leningrad.
- Biske, S. F., 1960 — Chetvertichnye otlozheniya ozerno-allyuvialnoj ravniny v nizovyakh r. Indigirki (Quaternary deposits of the lacustrine-alluvial plain of the lower Indigirka). *Geologiya i Geofizika*, no. 8.
- Bobov, N. G., 1963 — Vliyanie mnogoletnemerzloy tolshchi gornykh porod na razvitie reliefa. (The influence of permafrost on the relief development). *Izv. Akad. Nauk SSSR, ser. geog.*, no. 4.
- Bojcov, M. N., 1961 — O formirovanii reliefa v usloviyakh podzemnogo oledeneniya (On the relief development under the conditions of underground glaciation). *Trudy VSEGEI*, Novaya ser., t. 64.
- Bojcov, M. N., 1963 — K istorii merzlotnogo reliefa yugovostoka poluoostrova Yamal (On the history of frost-caused relief of the south-eastern Yamal peninsula). *Inform. sbornik VSEGEI*, no 53.
- Bolshakov, S. M., 1966 — Geokriologicheskie usloviya rajona zheleznoj dorogi Tajshet-Lena (Geocryological conditions of the region along the railroad Tajshet-Lena). In: *Materialy VIII Vsesoyuznogo mezhdudedomstvennogo soveshchaniya po geokriologii (merzlotovedeniyu)*, vyp. 3; Sibirskoe Otd. Inst. Merzlotovedeniya, Akad. Nauk SSSR, Yakutsk.

- Borisova, A. A., 1963 — O klimaticheskikh granicakh v razlichnye geologicheskie periody (summary: On the climatic boundaries in various geological periods). *Izv. Vses. Geog. Obshchestva.*, t. 95, vyp. 5.
- Boyarskaya, T. D., 1965 — Rastitelnost SSSR vo vremya maksimalnogo oledeniya i v mginskuyu mezhlednikovuyu epokhu (Vegetation of the USSR during the maximum glaciation and Mga interglacial). In: *Paleogeografiya chetvertichnogo perioda*. Published for the VII Intern. INQUA Congress, ed. Mosk. Univ.
- Boyarskij, O. G., et al., 1966 — Merzlotno-gidrogeologicheskie usloviya Vitimo—Patomskogo nagorya (Periglacial hydrogeological conditions of the Vitim—Patomsk highlands). In: *Materialy VIII Vsesoyuznogo mezhdudedomstvennogo soveshchaniya po geokriologii (merzlotovedeniyu)*, vyp. 3, Sibirskoe Otd. Inst. Merzlotovedeniya, Akad. Nauk SSSR, Yakutsk.
- Bratcev, L. A., 1964 — Geokriologicheskie usloviya Pechorskogo bassejna (Geocryological conditions of the Pechora basin). Ed. Nauka, Moscow.
- Buks, I. I., 1961 — Vozmozhnosti ispolzovaniya osobennostej rastitelnogo pokrova pri geologicheskom kartirovanii v usloviyakh Yakutskogo Zapolyarya (Possibilities of the use of vegetation-cover peculiarities in geological mapping under the conditions of Yakutsk polar regions). *Vestnik Moskovskogo Univ., ser. geog.*, no. 6.
- Chernyadev, V. P., 1966 — Melkomasshtabnoe kartirovanie glubin sezonnogo promerzaniya (Small-scale field-mapping of the thickness of seasonal freezing). In: *Materialy VIII Vsesoyuznogo mezhdudedomstvennogo soveshchaniya po geokriologii (merzlotovedeniyu)*, vyp. 2; Sibirskoe Otd. Inst. Merzlotovedeniya, Akad. Nauk SSSR, Yakutsk.
- Chetvertichnaya geologiya i geomorfologiya Sibiri (The Quaternary geology and geomorphology of Siberia). *Trudy Inst. geol. i geofiziki Sibirsk. Otd. Akad. Nauk SSSR*, vyp. 27; Novosibirsk 1962.
- Chetvertichnyj period i ego istoriya (The Quaternary period and its history). Ed. Akad. Nauk SSSR, Moscow, 1965.
- Chetvertichnyj period Sibiri (The Quaternary period of Siberia). Moscow, 1966.
- Danilov, I. D., 1962 — Pleistocenovye otlozheniya vostoka Bolshezemlskoj tundry i usloviya ikh obrazovaniya (summary: Pleistocene deposits of the eastern Bolshhezemelskaya tundra and conditions of their formation). *Izv. Akad. Nauk SSSR, ser. geog.*, no. 6.
- Danilov, I. D., Mudrov, Yu. V., Tumel, N. V., 1967 — Stroenie i istoriya formirovaniya vechnomerzlykh porod — Norilskij rajon (Structure and formation of permafrost, region of Norilsk). *Podzemnyj led*, vyp. 3; ed. Mosk. Univ.
- Demidyuk, L. M., 1966 — O strukturnom principe merzlotnogo rajonirovaniya Zabajkalya (Structural basis of periglacial sub-division of Transbaikalia). In: *Materialy VIII Vsesoyuznogo mezhdudedomstvennogo soveshchaniya po geokriologii (merzlotovedeniyu)*, vyp. 3; Sibirskoe Otd. Inst. Merzlotovedeniya Akad. Nauk SSSR, Yakutsk.

- Doklady na Mezhdunarodnoj Konferencii po merzlotovedeniyu (Papers presented at the International Conference on frozen soil science, La Fayette, USA, 1963). Ed. Akad. Nauk SSSR, Moscow, 1963.
- Dolgushin, I. Yu., 1961 — Geomorfologiya zapadnoj chasti Aldanskogo nagorya (Geomorphology of the western part of the Aldan upland). Ed. Akad. Nauk SSSR, Moscow.
- Dubikov, G. I., 1962 — Osobennosti rasprostraneniya mnogoletnemerzlykh porod v severnoj chasti Zapadno-Sibirskoj nizmennosti (Characteristics of permafrost occurrence of the northern part of the Western Siberian lowland). *Trudy Inst. Merzlotovedeniya, Akad. Nauk SSSR*, t. 19; Moscow.
- Efimov, A. I., 1964 — Temperatura mnogoletnemerzlykh gornykh porod v okrestnostyakh g. Mirnogo (Temperature of permafrost in the vicinity of Mirnyj). In: *Sovremennye voprosy regionalnoj i inzhenernoj geokriologii (merzlotovedeniya)*; ed. Nauka, Moscow.
- Epshtejn, G. M., 1961 — Novye dannye o mnogoletnemerzlykh porodakh doliny verkhnego Amura — s. Pokrovka—s. Kuznecova (New data on permafrost in the upper Amur valley, between Pokrovka and Kuznecova). *Merzlotnye Issledovaniya*, vyp. 1; ed. Mosk. Univ., Moscow.
- Epshtejn, G. M., 1964 — Klassifikaciya mnogoletnemerzlykh porod Aldanskogo rajona (Classification of permafrost in the Aldan region). *Merzlotnye Issledovaniya*, vyp. 4; ed. Mosk. Univ., Moscow.
- Formirovanie reliefa chetvertichnykh otlozhenij Kolskogo poluostova (The formation of land-forms and Quaternary deposits of the Kola peninsula). *Sbornik, Kolskij filial Akad. Nauk SSSR*, ed. Nauka; Moscow-Leningrad, 1966.
- Fotiev, S. M., 1966 — Problema vzaimodejstviya podzemnykh vod i merzlykh tolshch v razlichnykh tipakh gidrogeologicheskikh struktur na territorii SSSR (The interrelation of ground water and permafrost in various types of hydrogeological structures in the USSR territory). In: *Materialy VIII Vsesoyuznogo mezhdovedomstvennogo soveshchaniya po geokriologii (merzlotovedeniyu)*, vyp. 2; Sibirskoe Otd. Inst. Merzlotovedeniya Akad. Nauk SSSR, Yakutsk.
- Geokriologicheskie usloviya Zapadnoj Sibiri, Yakutii i Chukotki (Geocryologic conditions in Western Siberia, Yakutia and Chukotka). Ed. Nauka Moscow, 1964.
- Geokriologicheskie usloviya Pechorskogo ugolnogo bassejna (Geocryologic conditions in the Pechora coal basin). Ed. Nedra, Moscow, 1964.
- Geologiya kajnozoya severa Evropejskoj chasti SSSR (Geology of the Cenozoic period of the northern European part of the USSR). Ed. Mosk. Univ., Moscow, 1966.
- Gesse, V. N., Granovich, I. B., Savelev, A. A., 1963 — K voprosu o kharaktere oledeneniya Polyarnogo Urala v verkhnechetvertichnuyu i sovremennuyu epokhi (On the character of Pleistocene and present-day glaciations in the Polar Ural Mts). In: *Kajnozoijskij pokrov Boshezemel'skoj tundry*; ed. Mosk. Univ., Moscow.

- Gildenblat, V. S., Sitnik, V. A., 1966 — K voprosu formirovaniya reliefa i chetvertichnye otlozheniya verkhovev r. Kozhim (On the formation of land-forms and the Quaternary deposits in the upper valley of r. Kozhim). In: *Geologiya kajnozoya Severa Evropejskoj chasti SSSR*; ed. Mosk. Univ., Moscow.
- Gorbackij, G. V., 1964 — Severnaya polyarnaya oblast (North Polar region). Ed. Leningr. Univ., Leningrad.
- Goreckij, G. I., 1961 — Geneticheskie tipy i raznovidnosti otlozhenij periglacialnoj formacii (Genetic types and varieties of periglacial deposits). In: *Materialy po genezisu i litologii chetvertichnykh otlozhenij*; ed. Akad. Nauk Belorusskoj SSR, Minsk.
- Govorukha, L. S., Simonov, I. M., 1961 — K voprosu o tendencii oleneniya Zemli Franca Josifa (On the trend of glaciation in Franz Joseph Land). *Problema Arktiki i Antarktiki*, vyp. 9; Leningrad.
- Govorukhin, V. S., 1963 — Lesotundra kak fiziko-geograficheskaya zonalnaya oblast (Forest-tundra as a geographical zone). *Problema Severa*, vyp. 7; ed. Akad. Nauk SSSR.
- Grichuk, V. P., 1966 — Glacialnye flory Russkoj ravniny (Glacial flora of the Russian Plain). In: *Znachenie palinologicheskogo analiza dlia stratigrafii i paleogeografii*; ed. Nauka, Moscow.
- Grigoriev, N. F., 1960 — Geokriologicheskie usloviya pod ozernymi vo-domami v vostochnoj Antarktide. (Geocryological conditions under lake basins in eastern Antarctica). In: *Sovetskaya antarktich. ekspediciya — 10*; ed. Morskoj transport, p. 318—320, Leningrad.
- Grigoriev, N. F., 1962 — Formirovanie reliefa i merzlykh gornyx porod poberezhya Vostochnoj Antarktidy (Formation of land-forms and permafrost in the coastal area of eastern, Antarctica). Akad. Nauk SSSR, Moscow.
- Grigoriev, N. F., 1964 — Osobennosti formirovaniya beregov v usloviyakh polyarnogo klimata (Some characteristics of shore development under Polar climatic conditions). In: *Teoreticheskie voprosy dinamiki morskikh beregov*; ed. Nauka, Moscow.
- Grigoriev, N. F., Ivanov, N. S., 1965 — K voprosu o formirovanii merzlykh tolshch na ostrovakh Arkticheskikh morej (On the formation of permafrost on the islands of the Arctic sea). In: *Processy Teplo-i massoobmena v merzlykh gornyx porodakh*; ed. Nauka, Moscow.
- Grusheckij, I. I., 1965 — Etapy reliefoobrazovaniya na severo-vostoke Sredne-Sibirskogo ploskogorya v antropogene (Stages of relief development in the north-east of the Central Siberian upland during the Anthropogene). *Uchennye Zapiski Nauchno-issled. Inst. Geologii Arktiki*, vyp. 7; Regionalnaya geologiya.
- Gudina, V. I., 1963 — Novye dannye po stratigrafii morskikh chetvertichnykh otlozhenij nizhnego Priobya (New data on the stratigraphy of the Quaternary marine deposits in the Lower Ob area). *Geologiya i Geofizika*, no. 12.

- Ivanov, N. S., 1964 — Teplofizicheskie svoystva merzlykh gornyx porod (Thermal properties of permafrost). In: *Sovremennye voprosy regionalnoj i inzhenernoj geokriologii (merzlotovedeniya)*; ed. Nauka, Moscow.
- Ivanova, T. F., 1960 — Geokriologicheskoe rajonirovanie severa Evropejskoj chasti Soyuza (Geocryological sub-division of the north European part of the Soviet Union). *Trudy Inst. Merzlotovedeniya*, vyp. 1.
- Ivanova, T. F., 1962 — Geokriologicheskoe rajonirovanie territorii Evropejskogo Severa (Geocryological sub-division of the territory of the European North). *Trudy Sev. Otd. Inst. Merzlotovedeniya*, vyp. 2.
- Ivanova, T. F., 1966 — O nekotorykh principakh geokriologicheskogo rajonirovaniya (na primere Bolshezemelskoj i Malozemelskoj tundry) (Some bases of geocryological sub-division, Bolshezemelskaya and Malozemelskaya tundra). In: *Materialy VIII Vsesoyuznogo mezhdudomstvennogo soveshchaniya po geokriologii (merzlotovedeniyu)*, vyp. 3; Sibirskoye Otd. Inst. Merzlotovedeniya Akad. Nauk SSSR, Yakutsk.
- Kachurin, S. P., 1961 — Merzlye gornye porody. Ikh rol v prirode i zhizni cheloveka (Perennially frozen grounds, their role in the nature and the activity of man). Moscow.
- Kachurin, S. P., 1961 — Rol mnogoletnego promerzaniya i protaivaniya gornyx porod v razvitii reliefa i formirovanie rykhlykh otlozhenij (The role of many years' freezing and thawing of the ground in the relief evolution, and the formation of loose sediments). In: *Materialy Vses. soveshchaniya po izucheniyu chetvert. perioda*, t. 1; ed. Akad. Nauk SSSR.
- Kachurin, S. P., 1963 — Geokriologicheskije i gidrogeologicheskije issledovaniya v Sibiri i na Dalnem Vostoke (Geocryological and hydrogeological investigations in Siberia and the Far East). In: *Mноголетnemerzlye porody razlichnykh rajonov SSSR*; ed. Akad. Nauk SSSR, Moscow.
- Kachurin, S. P., 1963 — Razvitie idej M. I. Sumgina po merzlotovedeniyu (Evolving of Sumgin's theory of cryopedology). In: *Mноголетnemerzlye gornye porody razlichnykh rajonov SSSR*; ed. Akad. Nauk SSSR, Moscow.
- Kachurin, S. P., 1964 — Znachenie rabot M. I. Sumgina dlya sovetetskogo merzlotovedeniya (Importance of M. I. Sumgin's works for Sovietic cryopedology). In: *Sovremennye voprosy regionalnoj i inzhenernoj geokriologii (merzlotovedeniya)*; ed. Nauka, Moscow.
- Kachurin, S. P., 1965 — Многолетная и сезонная мерзлота, Якутия (Permafrost and seasonal frozen grounds in Yakutia). In: *Yakutia*, ed. Nauka, Moscow.
- Kajnozojskij pokrov Bolshezemelskoj tundry (Cenozoic formations of the Bolshezemelskaya tundra). Selected papers; ed. Mosk. Univ., Moscow.
- Kajyalajnen, V. I., Kulakov, Yu. H., 1965 — Osnovnye cherty istorii geologicheskogo razvitiya Yano-Indigirskoj (Primorskoj) nizmennosti v neogen—chetvertichnoe vremya (Main characteristics of geologic evolution of the lower Yana—Indigirka lowland during Neogene—Quaternary times). *Trudy NIIGA*, t. 143; ed. Nedra.
- Kalabin A. I., 1960 — Vechnaya merzlota i gidrogeologiya Severo-Vostoka SSSR (Permafrost and hydrogeology of the North-East of the USSR). *Trudy VNII—1*, t. 10: Merzlotovedenie, vyp. 20; Madagan.

- Kaleckaya, N. S., 1961 — Chetvertichnye otlozheniya i nekotorye cherty razvitiya reliefa vostochnoj chasti Pechorskogo bassejna (Quaternary deposits and some characteristics of relief evolution of the eastern Pechora basin). In: *Materialy Vsesoyuznogo soveshchaniya po izucheniyu chetvertichnogo perioda*, t. 2; Moscow.
- Kaleckaya N. S., 1961 — Paleogeograficheskie osobennosti pozdnego lednikovogo pokrova na Krajnem Severo-vostoke evropejskoj chasti SSSR (Paleogeographical characteristics of the late glaciation in the extreme North-East of the European part of the USSR): In: *Materialy po geologii i poleznym iskopaemym severo-vostoka evropejskoj chasti SSSR*, vyp. 2; ed. Gosgeoltekhizdat, Moscow.
- Kalesnik, S. V., 1963 — Ocherki glaciologii (An outline of glaciology). Ed. Geografiz, Moscow.
- Kaplanskaya, F. A. 1966 — Paleokriopedologicheskie issledovaniya v prilednikovyx rajonakh Zapadno-Sibirskoj nizmennosti (Paleocryopedological investigations in periglacial regions of the West-Siberian lowland). In: *Materialy VIII Vsesoyuznogo mezhdovedomstvennogo soveshchaniya po geokriologii (merzlotovedeniyu)*, vyp. 2; Sibirskoe Otd. Inst. Merzlotovedeniya Akad. Nauk SSSR, Yakutsk.
- Kaplanskaya, F. A., Tarnogradskij, V. D., 1966 — Vzglyady M. N. Bojcov na genezis, klassifikaciju i evolyuciyu merzlotnogo reliefa, obzor rabot (N. N. Bojcov's views on the origin, classification and evolution of the periglacial relief, review of papers). In: *Materialy VIII Vsesoyuznogo mezhdovedomstvennogo soveshchaniya po geokriologii (merzlotovedeniyu)*, vyp. 6; Sibirskoe Otd. Inst. Merzlotovedeniya Akad. Nauk SSSR, Yakutsk.
- Karpov, N. N., 1961 — O landshaftnom metode merzlotnogo kartografirovaniya — na primere Zabajkalya (On the physiographic method in periglacial cartography — on the basis of example from Transbaikalia). *Vestnik Moskovskogo Universiteta, ser. geog.*, no 4.
- Karpov, N. N., 1962 — O kartakh elementarnyx landshaftov, sostavlyayemykh pri krupnomasshtabnoj merzlotnoj semke — na primere Zabajkalya (On the maps of elementary landscapes made during large-scale periglacial mapping — on the example from Transbaikalia). In: *Voprosy geograficheskogo merzlotovedeniya i periglacialnoj morfologii*; ed. Mosk. Univ., Moscow.
- Karpov, N. N., 1962 — Elementarnyj landshaft i tip elementarnogo landshafta i ikh razlichnoe merzlotno-indicacionnoe znachenie (Elementary landscape and its type as various indicators of periglaciation). In: *Voprosy geograficheskogo merzlotovedeniya i periglacialnoj morfologii*; ed. Mosk. Univ., Moscow.
- Kartashov, I. P., 1963 — Edinaya geneticheskaya klassifikaciya reliefa, rykhlykh otlozhenij i rossypej (Uniform genetic classification of landforms, loose sediments and screes). *Trudy Severo-Vost. Kompl. Nauchno-issled. Inst.*, vyp 3; Madagan.
- Katasonov, E. M., 1963 — Sovremennye mnogoletnemerzlye otlozheniya i ikh bolee drevnie analogi v severo-vostochnoj chasti Yano-Vilyujskogo mezhdurechya (Recent periglacial deposits and their older analogues in

- the north-eastern part of the Yana—Vilyuj interfluve). In: *Usloviya i osobennosti razvitiya merzlykh tolshch v Sibiri i na Dalnem Vostoke*; ed. Akad. Nauk SSSR.
- Katasonov, E. M., 1965 — Merzlotno-facialnye issledovaniya mnogoletne-merzlykh tolshch i voprosy paleogeografii chetvertichnogo perioda Sibiri (Studies of permafrost facies and paleogeographic problems of the Quaternary period in Siberia). In: *Osnovnye problemy izucheniya chetvertichnogo perioda*; ed. Nauka, Moscow.
- Koldysheva, R. Ya., 1966 — K voprosu ob osobennostyakh rasprostraneniya mnogoletnemerzlykh porod v Tunkinskoj vpadline (Some characteristics of permafrost distribution in the Tunkin depression). In: *Materialy VIII Vsesoyuznogo mezhdudomstvennogo soveshchaniya po geokriologii (merzlotovedeniyu)*, vyp. 3; Sibirskoe Otd. Inst. Merzlotovedeniya Akad. Nauk SSSR, Yakutsk.
- Kondratyeva, K. A., Uizhov, A. B., Kruckij, S. F., 1966 — Melkomasshtabnye merzlotno-geologicheskie karty Aldanskogo gorno-promyshlennogo rajona i Yuzhnoj Yakutii (Small-scale periglacial geological maps of the Aldan mining-industrial region and of Southern Yakutia). In: *Materialy VIII Vsesoyuznogo mezhdudomstvennogo soveshchaniya po geokriologii (merzlotovedeniyu)*, vyp. 3; Sibirskoe Otd. Inst. Merzlotovedeniya Akad. Nauk SSSR, Yakutsk.
- Kornilov, B. A., 1962 — Relief yugo-vostochnoj okrainy Aldanskogo nago-rya (Relief pattern of south-eastern border of the Aldan upland). Ed. Akad. Nauk SSSR, Moscow.
